12th Grade in Commerce with Mathematics
L.K.International School
Central Board of Secondary Education
- Ghaziabad, Uttar Pradesh, India
  2016-2018

PROJECTS

Project 1: - Personal Portfolio Website
Description: - This is my personal portfolio website, designed to showcase my skills and experience in web development. I crafted the site using HTML, CSS, and JavaScript, ensuring it's responsive and accessible across all devices.

Project 2: - Todo List Website
Description: - This is a straightforward to-do list application developed with HTML, CSS, and JavaScript. It includes a navigation bar with options to add new tasks and delete all tasks. When 'Add' is clicked, a popup box allows the user to input a task's title and description. Clicking 'Submit' adds the task to the list displayed below. The app also includes a copyright notice at the bottom.

WORK EXPERIENCE

- **Web Development and Design Intern**
  Oasis Info Byte
  Duration : 1 Month
  April 2023 - May 2023

  - **Key Point :**
    Successfully completed a one-month internship in web development and web design with Oasis Info Byte, receiving outstanding feedback for contributions to web development projects and gaining practical experience in web design principles.

Project 3: - Text Convert Application

Description: - This project is a versatile text manipulation application built using React JS. It offers users the ability to easily convert text between uppercase and lowercase, remove line spaces, clear the input field, and conveniently copy text. The user-friendly interface enhances text processing and readability.
